

Intelligent Patient Account Management Solution (iPAM)

Unlock Revenue. Reduce Denials. Automate Success.

Why Choose iPAM?

Improved Decision Making

End-to-end visibility into provider-payer interactions for smarter, faster decisions.

Lower Administrative Costs

Automate provider-payer workflows to cut costs and accelerate responses.

Maximize Revenue Recovery

Recover more from denied claims with advanced analytics and automation.

Proactive Denial Avoidance

Prevent denials before they happen, improving cash flow and overall revenue.

Powered by Bloom Value Capabilities

FAST Platform

Unifies claims data for visualization, benchmarking, and proactive optimization.

AI/ML Engines

Delivers actionable insights with denial prediction, root cause analysis, and yield forecasting.

Automation Engines

Streamlines manual tasks-process denial letters, dispatch demand letters, and more.

Expert Services

Healthcare billing and coding specialists enhance AI-driven results.

iPAM Solution Modules

Claims/Denials Visibility & Benchmarking

Full-cycle analytics on denial rates, reason codes, and more.

Denials/Revenue Cycle Automation

Custom automation for backend revenue cycle operations.

Denials Recovery Optimization

Automated denial analysis and appeals, with expert oversight.

Proactive Denials Avoidance

Predictive alerts for high-risk claims, enabling pre-emptive action.

Accounts Receivable Insights

Prioritize accounts by value, yield likelihood, and collection effort.

EHR/RCM Integration

Seamless data movement using HL7, FHIR, and other standards.

Process Improvement Services

Expert-led process mapping and optimization to reduce denial risk.
