

Intelligent Revenue and Eligibility Service (iRES)

AI-Powered Automation for Eligibility Verification & Revenue Reconciliation

Bloom's iRES **transforms** healthcare operations by automating eligibility verification and pinpointing gaps in capitation payments. By reducing errors, enhancing efficiency, and providing actionable insights, iRES enables healthcare organizations to focus on delivering exceptional patient care while driving operational and financial success.

Key Features

Automated Eligibility Verification

1. **Health Plan File Automation:** Automatically processes monthly health plan files to ensure member eligibility is up to date.
2. **Member Count Tracking:** Monitors enrollment trends for each IPA, highlighting growth or attrition.
3. **Benefit Option Verification:** Confirms accurate benefit details for seamless claim processing.
4. **Unique ID Tracking (Coming Soon):** Tracks members using unique IDs, even if they switch health plans within the same IPA network.
5. **IPA Communication:** Provides regular updates to IPAs on member eligibility.

Benefits

Reduce Manual Input

Streamline workflows and free up staff time for high-value tasks.

Improve Data Accuracy

Minimize errors in eligibility updates and claims processing.

Realize More Revenue

Maximize capitation payments and eliminate revenue leakage.

Informed Decision Making

Leverage accurate data for actionable insights and better planning.

Intelligent Revenue Reconciliation

1. **Member-Level Tracking:** Automatically identifies and tracks capitation revenue at the member level.
2. **Revenue Trend Visibility:** Offers actionable insights into revenue trends across member populations.
3. **Automated Reconciliation:** Instantly identifies discrepancies between capitation revenue and actual payments received.
4. **Leadership Transparency:** Delivers clear revenue trends to leadership without extensive manual effort.

Why choose Bloom's iRES

Revenue Protection

Ensure accurate capitation payments and sub-capitation disbursements through robust eligibility data.

Efficiency Gains

Reduce verification times from days to hours, enabling faster authorizations and improved patient care.

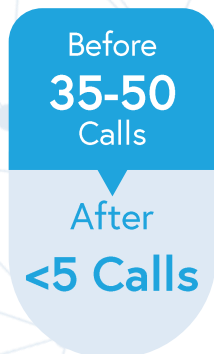

Operational Impact

Comprehensive member information supports timely, accurate authorizations and reduces administrative delays.

The Business Impact

85-90% Reduction in Member Calls

24X Faster Eligibility Verification

Near Zero Authorization Delays

30% Increase in Capitation Revenue
